InBound

Flooring from **SureSet**

The recently launched internal range is

- *Smooth
- *Durable
- *Easy to clean
- *15 year Guaranteed
- *Comfortable under foot
- *An Attractive alternative

Our extensive colour range and intricate design capabilities gives the potential for companies to set their logo in stone.

For a chance to receive some high street vouchers send us any impressive images of projects completed by SureSet UK Ltd.

There will also be an opportunity to put a case study together and mention everyone involved.

SureSet have recently installed 131m² of permeable resin bound paving on a private driveway in Essex.

The 6mm Barley Beach material chosen blends beautifully with the limestone edging and compliments the house superbly. The material was laid onto a fully permeable tarmac base to achieve a sustainable drainage system (SUDs), a water management system that is eco friendly.

The National Home Building Show is the UK's biggest, dedicated self-build & renovation event.

SureSet will be exhibiting at The Home Building & Renovating show in March 2012 at the NEC, Birmingham.

Ticklecock Project

A regeneration project completed in Castleford, Yorkshire. The project was aimed to rejuvenate and enliven an underpass called Ticklecock Bridge which has been the subject of much attention throughout the years.

Staff Update

We have recently added some new members to the business.

- Hugh Haines recently joined the sales team as Business Development Coordinator.
- John Fletcher joined the operations team as Project Coordinator.
- Martyn Shaw as SureSet Site Inspector.

From 11th May Joni Carpenter will be on Maternity Leave expecting her first child.

In April Joe Berkem is changing careers to teach English in Thailand.

We wish them all the best for the future!

International

Resin bound paving is proven in projects across Europe and Australasia where it has delivered a wide range of surfacing and design options for both new build and refurbishment projects. Highly versatile, SureSet resin bound paving delivers beautiful and long lasting solutions, bringing life to projects of any size - including driveways, patios, pool surrounds, roof gardens, play areas, car parks, tree pits and public spaces.

We have recently appointed some new agents:

Temako Engineering - Ghana

Tanseq LLC - UAE, Oman, Bahrain, Saudi Arabia, Kuwait

A wine bar in Wiltshire has recently had 'InBound' installed, SureSets new internal resin bound flooring range. For a fun unusual approach the owner also had £1 coins placed within the natural gravel material. The surfacing was then sealed for ease on cleaning up any spilled drinks.

Surface Design Show

Our new internal range 'InBound' has been launched. The show was a success with some really strong positive leads and feedback.

A big thank you to all who came to visit us and to those that made it possible.
